Have you got a reason not to play ?”*

MultiPlay Table Top

Table Top Multiplay Retro Arcade
For 2 players (alternating)

MultiPlay Challenger

Upright model for 2
players simultaneously

MultiPlay involves integrating a computer system running emulation software within an original style cabinet along with the control panels, joy sticks and coin-mechanism. This permits for multiple games to be played from one Arcade Machine through a specially designed interface connecting the computer hardware to the coin mechanism and control buttons and joysticks.
