

FULL MOTION F1-SIMULATOR

Our full motion Formula 1-simulator provides the greatest racing simulation one can find. It's a semi full-size F1-replica which gives the feeling and grandeur of a real F1-car, but keeps at the same time the required space and budget under control. Being fully interactive, it runs on the best and latest F1-racing software available. And using the very latest motion technology, it features a unique « glide » - feature to simulate the G-forces experienced by the pilots !

Technical details :

Space required : 4.5 x 3 m

Power consumption : 1 x 16 amps, 220-240 volt

Capacity : +/- 15 players/hour

Minimum width door : 150 cm

Weight : 300 kgs (simulator alone)

Installation time : 60 mins.

Screen : 240 cm x 180 cm

Projector : 3500 ansi lumen
