

MOTOCROSS GO !

Motocross Go! provides the player with all the excitement of motocross racing without eating dirt !

Bike-to-bike bumping and collisions add to the competitiveness of the game. Spectacular jumps mimic those of real riders. Cornering techniques must be mastered to win the race. Motocross Go! Is a grueling race where skill, technique and strategy separate the winners from the losers.

There are three courses to choose from: novice, intermediate and advanced.

Features :

- Left/right leaning and handlebar feedback steering
- “Twist”-throttle and “squeeze”-type brake controls
- Adjustable viewpoint button : first or third person view

The game can be played by one single player, but machines can be linked up to 4 players.
